## **DETAILED ACTION**

#### **Priority**

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: "8a" and "8b" in figure 1. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

# Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.
- 4. Claims 1-89 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the skin effect" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claims 2 and 4 states, "...circuit includes a coil made by winding a coaxial cable around at least one of an open magnetic core and a closed magnetic core." It was not clear as to which type of

core the cable was wound about. It was understood by the examiner that either an open or closed magnetic core might have been used.

Claim 5 recites the limitation "the core conductors" and "the outer conductors". There is insufficient antecedent basis for these limitations in the claim.

Claim 9 recites the limitation "the coil". There is insufficient antecedent basis for this limitation in the claim.

Claims 6-89 were not written clearly enough to be examined. Due to preliminary amendment A, claims were amended in order to avoid multiple dependent claims, however; due to the removal of the multiple dependency, limitations were introduced in certain claims, which did not have sufficient antecedent basis. **Some** specific examples are cited below.

Claim 10 recites the limitation, "...the coil is provided in one of the two housings." There is insufficient antecedent basis for this limitation in the claim. The coil had not been introduced within the chain of dependent claims.

Claims 14, 16, recites the limitation "the first and the second coil are made by serially winding...". There is insufficient antecedent basis for this limitation in the claim. The first and the second coils had not been introduced within the chain of dependent claims.

Claims 20, 22, 26, 28, recites the limitation "conductor of the first coil...conductor of the second coil...the coil conductors...". There is insufficient antecedent basis for this limitation in the claim. The first coil, the second coil, and the coil conductors had not been introduced within the chain of dependent claims.

Claim 32, 34, recites the limitation "...wherein the ferrite core...and the coil...". There is insufficient antecedent basis for this limitation in the claim. The ferrite core and the coil had not been introduced within the chain of dependent claims.

Claim 35, 36, 38, 40 states, "...wherein the ferrite core orthogonally intersects with a substrate, and the coil is formed by...". Examiner did not know which ferrite core or which coil the applicant was referring to.

Appropriate correction is required.

# Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer A. Poker whose telephone number is 703-305-4037. The examiner can normally be reached on 6:00-3:30, Mon.-Fri. (alternating Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin G. Enad can be reached on 703-308-7619. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-3432 for regular communications and 703-746-8181 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 730-308-5115.
